IMS POLICY

The Management of PNI have established a clear vision, and are motivated and committed to setting and maintaining a high standard of system management, and complying with all regulatory authorities to ensure that safe, healthy and environmentally acceptable code of working practices is continued to be implemented, developed and maintained through its IMS system.

WE AT PN INTERNATIONAL STRIVE TO:

- Fulfil the ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018 requirements.
- Enhance customer satisfaction by ensuring world-class product on-time delivery to the agreed specifications and compliance by doing benchmarking, building knowledge, and being a process-driven organisation with continual improvement as a driving force in all our operations.
- Increase market presence in the global market by focussing on value-added and innovative products, in line with customer requirements.
- Obtain business outcomes by improving systems and processes with the application of technology, automation, and digitization.
- Ensure Quality, Health, Safety and Environment Management by carrying out continuous quality improvement, Potential Risk and Environment assessment, and optimize the use of resources through Recovery, Reuse & Recycle process.
- Provide safe and healthy working conditions and conduct all operations safely to prevent work-related injury and ill health to persons, damage to property and environment.
- Comply with the applicable standards, procedures, contingency measures, Legal requirements, customer requirements and management system in order to ensure operations are managed safely and ecologically sustainable manner.
- Train, motivate and ensure active participation and consultation of all employees to develop and achieve organisation objectives.
- Deliver our mandates and business commitments through safe and healthy business processes that protect the lives of our valued customers, employees, and visitors with a serious elimination of any occurrence of health and safety related risks or hazards.
- Additionally, the leadership team undertakes to publish the IMS policy through the available means to all interested parties and to review it periodically.
